PROFILE

With a robust tenure of more than 14 years in the tech industry, I present myself as a seasoned Senior Full Stack Developer. My career has been dedicated to devising scalable web applications that not only meet but exceed expectations. I take pride in crafting clean, maintainable code and establishing reliable architecture that stands the test of time. My expertise lies in transforming ideas into reality using cutting-edge technologies like JavaScript and TypeScript, along with contemporary web frameworks. This skill set enables me to create software solutions that are not only quick and efficient but also user-friendly, ensuring a seamless experience for users.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer
Sweetspot 🔗

07/2021 – 03/2025
Deerlijk, Belgium

Sweetspot is the most popular IT service in Belgium. The main focus of the marketplace is all areas in which remote cooperation.

- Developed reusable React components and custom hooks, resulting in a 50% reduction in development efforts across 3 different projects.
- Improved loading times by 30% and enhanced overall performance by implementing caching techniques, browser optimization techniques, and GZIP compression.
- Engineered the migration of a monolith GraphQL API to microservices architecture using Apollo Federation and Nest.js.
- Enabled high scalability and agility by integrating AWS technology (Lambda, ECS Fargate) and infrastructure code frameworks (Terraform, Serverless).

Senior Software Engineer
Torgsoft 🔗

05/2017 – 03/2021
Kharkiv, Ukraine

Torgsoft has compiled a rating of the largest marketplaces in Ukraine based on the Ukrainian Business Award research in 2020.

- Implemented customer-facing user interface (UI) and back-end services for various business processes, including calendar integration, metrics, discounts, stripe integration, and client rescheduling.
- Built 10+ custom React hooks for sharing reusable logic between functional components.
- Enhanced user experiences (UX) by updating 20+ components to match the latest design style guide, while adding animations to refresh the mobile app's overall look and feel.
- Collaborated with design and development teams to revamp the product's visual identity and improve user experience by implementing new design patterns and animations.
- Re-engineered critical modules within a sprint to rely on a centralized library to optimize performance by 28%.

Software Developer
Computools 🔗

08/2011 – 04/2017
Warsaw, Poland

Computools is an IT Consulting and Custom Software Development Company that designs solutions to help companies meet the needs of tomorrow.

- Streamlined processes by coordinating the transfer of 2,000+ entries of financial data from worldwide production subsidiaries to a single web-based reporting tool.
- Developed 3 cross-platform web apps and web backend using diverse technology stacks such as JavaScript, React, Node, and PHP, leading to increased efficiency.
- Provided good advices on setting up development environment.
- Made improvement suggestions, and established and promoted development guidelines, best practices, and standards.

SKILLS

Languages
JavaScript, TypeScript, HTML, CSS, SASS, PHP, Python

Frontend
React, Next.js, Vue, Angular, React Native, Redux, TailwindCSS, Bootstrap, Material UI, Ant Design

Backend
Node.js, Express, NextJS, Laravel, Django, RESTful API, GraphQL, fastAPI

Databases
PostgreSQL, MongoDB, MySQL, Firebase

DevOps & Tools
Github, Gitlab, Docker, AWS, Vercel, CI/CD, Jest, Cloudflare

EDUCATION

Bachelor Degree in Computer Science
National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute" 🔗
Completed a comprehensive program focusing on software engineering, algorithms, and database systems. Developed foundational knowledge in computer systems, programming languages, and software development methodologies.

09/2006 – 06/2010
Kyiv, Ukraine

Junior Specialist (Software Development)
Professional College of Information Systems and Technologies of KNEU named after Vadym Hetman 🔗
Received practical training in programming, databases, and software tools. Developed skills in both front-end and back-end development with hands-on projects.

09/2003 – 06/2006
Kyiv, Ukraine

STRENGTHS

Time management
Good time management allows me to accomplish more in a shorter period of time, which lets me take advantage of learning opportunities and helps me focus, which leads to more career success.

Proactive
I am not afraid to offer new ideas for projects, workflow, or client's culture.
I do not hesitate to ask for help or guidance if I find something unclear.

Application scalability emphasis
Skilled in building scalable, efficient, and user-friendly web applications.

Teamwork
I am not just committed to my own development, I also care about helping other developers improve. I am willing to teach, answer questions, and write documentation that favors teammates both in their business and in the wider developer community.
